

Snowmobile Advisory Council Meeting Minutes  
March 14, 2013  
**Council Polled via E-mail**

Participants: E-mail sent to all advisory council members

Note taker: N/A

On March 14, 2013 our advisory council voted with a majority voting to reinstate up to 10% of municipal grant projects based on last year's numbers for those in need and exceed their existing grant reimbursement. This was determined immediately after receiving registration counts from IFW.

This method of contact was used to expedite action in getting the word out to municipalities. Municipalities were contacted via e-mail and/or by postal mail if an e-mail address was not on file.

To receive this restoration of funds, the municipality must submit their final reimbursement request (postmarked no later than) by **April 15<sup>th</sup>**. This is required to provide adequate time for amendments to be processed. Those not in need of the 10% restoration can follow the deadline of May 31<sup>st</sup>.

We will be monitoring revenue in hopes of restoring club grants that need the 10% as well.
